Newbury and Thatcham Green Gym Risk Assessment Bucklebury Common

A&E

Access for emergency vehicles at main road Minor injuries – West Berkshire Community Hospital, RG18 3AS, 5.8 miles A&E – Royal Berkshire Hospital, Craven Road, Reading, RG1 5AN, 16 miles

General Considerations:

Groups at risk at all Newbury and Thatcham Green Gym venues are volunteers and general public.

Hazards	Typical outcomes	Controls	Risk level
Weather: heat, cold, wet	Heat exhaustion, sunburn, hypothermia	Adequate clothing. In hot conditions: sun hats, high factor sun cream on exposed skin, stop working if ill attired or in discomfort; In cold, wet conditions: warm hats, gloves, waterproof jacket, waterproof trousers, hot & cold drinks	Slight as unlikely but harmful
Contact with hand tools	Cuts, grazes, blisters	Tools kept in good repair and fit for purpose Tools transported within tool bags with blades guards. Those not needed to be left in bags or in clear view so not to be a trip hazard Volunteers briefed on safe use of tools Safe working distances between volunteers Swinging tools not to be used with gloves or wet conditions First aid kit & first aiders attend every venue	Moderate as likely and harmful
Manual handling	Strains, lower back pain	If available, wheelbarrows to be used to transport heavier tools	Moderate as likely and harmful
Contact with micro organisms	Contracting disease	Always wash hands or use gel before eating, drinking or smoking Wear gloves when handling soil	Moderate as unlikely but very harmful

		Protect any cuts. Avoid contact with stream or pond water	
Irritant or poisonous plants	Blisters, burns	Warn of presence. Wear gloves and long sleeves, wash exposed skin thoroughly	Slight as unlikely and harmful
Insects	Bites or stings, Lyme disease	Wear long sleeves at all times, use insect repellent if present, identify wasp or bee nests & stop working in vicinity. Provide information on Lyme disease and importance of checking for ticks. Seek medical advice if concerned	Moderate as unlikely but very harmful
Chemicals	Burns, poisoning	Only qualified members to apply chemicals Safe use practices to be observed	Slight as unlikely and harmful

Activities and site specific considerations
Public WC: None

Hazards	Typical outcomes	Controls	Risk level
Traffic on roads approaching	Danger of being hit by moving vehicles	Unload tools from bags away from traffic	Slight as
task		Be aware of moving vehicle	unlikely and
		Cross where most visible	harmful
Abuse or aggression from	Stress, distress	Place warning signs at approaches to work area	Trivial as
public		Keep paths clear of tools and debris	unlikely and
		Avoid working in isolation	slight harm
		Avoid aggravating situation, walk away if necessary	
Uncontrolled dogs	Dogs interfering with work	Warn of possibility of dogs causing a distraction in	Trivial as
		work area	unlikely and
			slight harm
Dog faeces	Distress, mess on boots, disease	Warn of likely presence of dog faeces. If practical,	Moderate as
		remove from work area using bags	likely and
			harmful

Scrub clearance			
Slips, trips and falls on uneven ground, especially cut stumps	Cuts, grazes, strains, sprains, breaks, puncture wounds, blood borne infections	Point out trip hazards at start of task Keep site tidy e.g. avoid obstruction with tool bags	Moderate as likely and harmful
Vegetation such as gorse & holly	Scratches, including to eyes	Use goggles and wear long sleeves and long trousers all year	Moderate as likely and harmful
Falling branches or trees Unexpected movement of timber	Cuts, scratches, head injuries	Demonstrate felling techniques and importance of clear escape route, danger of "kickback" Use hard hats when working in tree-felling area	Moderate as likely and harmful

Bonfire		Controls	Risk level
Slips, trips and falls adjacent to	Cuts, grazes, strains, sprains, breaks	Point out trip hazards at start of task	Moderate as
bonfire		Locate fire on level ground, clearing any trip hazards	likely and
		from surrounding area	harmful
Flames	Burns	Place scrub on bonfire in controlled manner and	Moderate as
		move swiftly away	likely and
		Wear long sleeves and trousers to prevent burns	harmful
		Fire sited downwind of main work area	
		A First Aid box with water and burns dressings to be	
		available near the fire.	
Fire spreading	Uncontrolled burning of scrub	Bonfire not to be left unattended	Moderate as
		Fire not lit in strong winds or drought conditions	unlikely but
		Fires should be turned in and made safe at the end of	very harmful
		the day. The site owner/agent may well choose to do	
		this later	
		If available and necessary, use firebeater to	
		extinguish spread
